INTRODUCTION

R. L. Polk & Co. (publishers of more than 700 other city, county, state and national directories) presents to its subscribers and to the general public this 1940 edition of the Oakland City Directory (which also includes Alameda, Berkeley, Emeryville and Piedmont).

Confidence in the growth of Oakland and its wealth, industry and population, as well as in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for truly the directory is a mirror reflecting Oakland to the world.

The enviable place occupied by Polk's directories in offices, stores, libraries and homes throughout our country causes the publishers to forecast the belief that the Oakland City directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization having the courteous and hearty cooperation of the business and professional residents, the publishers feel that the results of their labor will meet with the approval of every resident of the city.

POPULATION

The estimated population of the East Bay is 538,000 based on the number of individual names in the alphabetical section of the Directory, with due allowance for women and children, whose names are not included. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory.

FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

The Street and Avenue Guide of Oakland, Alameda and Berkeley covers pages 19 to 42. In this section the names of the streets and avenues are arranged in alphabetical order.

The Alphabetical List of Names of residents, business firms and corporations is included in pages 45 to 952.

The Buyers' Guide, opposite page 952, printed on tinted paper, contains the advertisements of the leading manufacturing, business and professional interests of Oakland, Alameda and Berkeley. These pages will be found particularly interesting and instructive to the substantial elements of the city. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and as such, merits a survey by all buyers keen to prime themselves on source of supply. The city's activities, in many interesting phases, are interestingly pictured to reveal what it has in its show window. In an ambitious and progressive community like Oakland the need of this kind of information readily at hand is very great and frequently pressing. General appreciation of this fact is evidenced by the liberal patronage the City Directory enjoys in the many fields which it serves.

The Classified Business Directory is included in pages 953 to 1032. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory Section than through any other medium."

MUNICIPAL PUBLICITY

The City Directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To give emphasis to their desire to broadcast this information over the country, the publishers have placed copies of this issue of the Directory in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for free public reference and serve as perpetual advertisements of Oakland, Alameda and Berkeley, for business men the country over realize that the City Directory represents the community as it really is.

THE R. L. POLK & CO. DIRECTORY LIBRARY

Through the courtesy of the publishers of the Oakland City Directory, a Directory Library is maintained at the Oakland Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the City Directory as an advertising medium with assurance that it will bring a commensurate return.

R. L. POLK & CO.

OAKLAND

Metropolis of the East Bay Empire

• OAKLAND, third largest city of California, is pleasantly situated on the east shore of San Francisco Bay, almost directly opposite the entrance to the Golden Gate, which is clearly in sight although some miles distant. With its ocean-going commerce and its fine Inner Harbor, Oakland has been described as the place "where rail, air and water meet." It is both a city of industry and a city of homes, with an attractive residential section occupying in part the hills which form its picturesque background.

Of its many attractions, Lake Merritt, the only tidal lake in the heart of an American city, is pre-eminent. This lake, one mile long and four miles around, has a beautiful setting and its waters are often scenes of aquatic sports and regattas.

Among tourists attractions are: Motor outings along Highland Drive and Skyline Boulevard with vistas of the great bay and surrounding terrain; the home of Joaquin Miller, poet of the Sierras, situated on "The Heights" at the head of Dimond Canyon; Chabot Observatory; the Oakland Public Museum and the Henry A. Snow South African collection of animals and birds, and many other places of interest.

Modern engineering has been to the forefront in developing Oakland. The Posey Vehicular Tube, 4,436 feet long, laid on the bottom of Oakland Estuary, connects Oakland with Alameda its sister city on the south; and the new Broadway low-level tunnel through the hills to the northeast expedites travel to Contra Costa County and the interior; and, most stupendous of all, the San Francisco-Oakland Bay Bridge, one of the wonders of the modern world, was opened for vehicular traffic in November, 1936.

On the cultural side, Oakland is famed as the home of Mills College, which was founded nearly 86 years ago and which is the greatest college exclusively for women in the West. St. Mary's College, conducted by the Christian Brothers, is not far distant. And, adjoining Oakland on the north, is Berkeley, site of the great University of California.

STATISTICAL REVIEW

Council-Manager Form of Government

Area—61.6 square miles.

Altitude—Zero to 1800 feet.

Assessed valuation—\$259,796,258 — 1939-1940.

Parks—48, with acreage of 694.

White population—295,160.

Colored population—8,164.

Males—157,628.

Females—156,372.

Native-born population—79.3 per cent.

Predominating nationalities—German, Italian, English, Portuguese, Canadian, Irish, Swedish, Scotch and Danish.

City's bonded debt is \$9,334,845.

Financial: 57 banks, 7 trust companies.

Churches—190.

Building and construction: Value of building permits, 1938—\$9,114,134 with 9053 permits.

Real estate transfers (trust deeds recorded) total 13,489, valued at \$54,203,378 (1938). About 48.6 per cent of homes owned. Dwellings total number 80,471.

Industry: Metropolitan Oakland—Number of establishments—930 manufacturers employing 25,893, paying wages of \$28,531,000 annually and having products valued at \$241,111,846 annually.

Trade: Territory (retail) contains 1,500,000 people within the trading area covering a radius of 20 miles. Jobbing territory contains 1,730,000 people within a radius of 40 miles.

Hotels: There are 44 hotels, with 15 rooms or more, and 95 with less than 15 rooms.

City is the physical terminus of three transcontinental railroads.

Amusements: Largest auditorium seats 10,000 people. There are 41 theatres, with a total seating capacity of 46,700 people.

Hospitals number 25, with 2,100 beds.

Education: 3 colleges, 73 schools, including 10 high schools. Number of pupils in public schools 47,571. Total of teachers 1,900.

There are 172,000 volumes in the libraries of the city.

City statistics: Total street mileage, 714, with 511 miles paved; 708 miles of sewers. Traveled roads and unimproved streets—204 miles. Capacity of water works (public) 125,000,000 gallons daily, with 1,752 miles of mains and value of plant estimated at \$55,000,000.

Miscellaneous: Oakland is one of a group of nine contiguous cities which had a combined population of 487,839 on January 1, 1930. During the year 1938, Oakland enjoyed 192 full days of sunshine. The United States Census Bureau states that 94.1 per cent of Oakland's population is white and 76.7 per cent of it is native white. There are over 8 miles of berthing space in Oakland Harbor, 127 national industries have chosen Metropolitan Oakland for the base of their Pacific Coast operations. California's two greatest poultry producing centers are located within 20 miles of Oakland.

OAKLAND

Oakland, situated on the continental side of San Francisco Bay, is the third largest city in California, the fifth largest on the Pacific Coast, and the fastest growing industrial city in the West.

Though it has grown with tremendous rapidity, both from the standpoint of population and the standpoint of industry, Oakland is a city of homes. Stretching away from the bay there is ample room for a city of several million population before reaching the sloping hills which have become the exclusive residential section of each of the several cities along the eastern shore of the bay.

It is only in comparatively recent years that industries, recognizing the advantages offered by Oakland, began to claim the excellent factory sites along the bay shore. Today there are 930 plants, making a total of more than 2,300 different products in this great Metropolitan Oakland Area.

THE HARBOR

Oakland has 27 miles of deep water frontage on the greatest land-locked harbor in the world. Improved freight docking facilities have been installed by municipal and private interests, and repair facilities, superior to any on the Pacific Coast, are available here for the fleets of the world. Oakland lays claim to the largest floating dry docks in the world and the largest marine railroad. It has numerous other dry docks and marine railroads of lesser size.

A majority of the leading steamship lines carrying either coastwise or trans-Pacific freight, have made Oakland a regular port of call, and the volume handled on Oakland docks is growing with great rapidity.

United States Government engineers recently recommended the expenditure of more than a million and one-half dollars on the Oakland harbor.

U. S. NAVY

Two of the Navy's largest defense projects now are under way in the Metropolitan Oakland Area at a total cost of \$30,000,000.

Nearing completion is the Naval Air Station in Alameda, which will be the general repair base for planes and the Pacific Coast base for all types of sea planes and land planes assigned to the Navy. It will be one of the largest air stations in the world, with more than 4000 officers, men and civilians assigned to duty there.

Across the Oakland Estuary from this huge air station and located in Oakland's Middle Harbor is the new \$15,000,000 Navy Supply Depot. Recently approved by Congress, the new depot will furnish supplies, clothing, ammunition and other materials to the Pacific Fleet. It will be the chief supply base for fleet operations on the Pacific Coast.

CLIMATE

Oakland's climate is extremely equable. The average temperature for the twelve months is 56.8 degrees. The days are never too hot for comfort and the nights are always cool. Seldom, even in the so-called winter months, does the mercury drop to 32 degrees F. It is due to this ideal working climate that Oakland shipyards—and incidentally Oakland is one of the largest shipbuilding centers in the world—were the ones to set one building record after another during the World War.

HEALTH CONDITIONS

In point of health, Oakland has consistently ranked among the first cities of the nation for a long period of years, and statistics show that it has become an increasingly more healthful place for residents during the last fifteen years.

The death rate in Oakland in 1938 was 16.7 per thousand residents. During the past fourteen years Oakland has made a phenomenal improvement in its infant mortality rate. In 1920, seventy-one babies died out of every 1,000 born, while in 1938, the rate of infant mortality was reduced to only 45.6 deaths in 1,000 births.

POPULATION

The population of Oakland in 1910 was 150,174, in 1920, 216,261, a gain of approximately 44 per cent in a ten-year period. In 1930, 284,063, a gain of 31.4 per cent over 1920.

The cities of Oakland, Berkeley, Alameda, Emeryville, Piedmont, San Leandro, Albany, Richmand and El Cerrito have now grown together into one compact whole. It is these nine cities which are referred to as the Metropolitan Oakland Area, with a population of about 538,000.

SCHOOLS

Few cities in the United States can boast of a more perfect school system than Oakland, or more attractive school buildings. Noted educators from every section of the world have praised Oakland's educational facilities. The present school enrollment is in excess of 60,000. In Berkeley, which adjoins Oakland on the north, is the great University of California, the largest in the United States in point of enrollment and incidentally one of the richest in the matter of endowment.

Oakland has 49 primary and grammar schools, 13 junior high schools and 10 high schools.

PARKS AND PLAYGROUNDS

Oakland's new park and playground development—a noteworthy feature of which was the acquisition of extensive municipal golf links—undoubtedly will be conducive to a still higher level of health and well-being among residents of this favored city. Among the Oakland parks which have attracted the attention of tourists from all parts of the world is beautiful Lake Merritt and Lakeside Park. Lake Merritt, situated in the center of the city, comprises 160 acres, and is surrounded by wonderful lawns and beyond these by beautiful, modern homes and apartments. On one side of the lake is situated Oakland's million-dollar auditorium.

The waters of Lake Merritt are dotted the year around with canoes and launches and during the so-called winter months many thousands of wild ducks make Lake Merritt their home. Spring finds these traditional wild birds almost as tame as barnyard fowls. They walk on the laws and among the sightseers, apparently recognizing that their safety is assured.

The annual visit of these ducks that have adopted this spot in sunny California as their home has been made the occasion for pageants on the part of the people, and each January the now nationally known Wild Duck Pageant is held on the lake shore.

Possessed as it is of all these things considered essential for a great metropolis, with three trans-continental railways, its position on one of the world's greatest land-locked harbors and with ample room in which to make a tremendous expansion, Oakland's future is assured.

BERKELEY

"A Finer Place to Live"

STATISTICAL REVIEW

Name of City—Berkeley.

Altitude—0 to 1300 feet.

Area—17 square miles, 9 land and 8 water.

Population—Census of 1930—82,109; estimated total 1939—105,000; White, 1930 Census—77,508; Other, 1930 Census—4,601.

Education—16 elementary public schools, 3 junior high schools, 2 high schools; 4 divinity schools; 7 commercial; 7 private, 3 parochial, 7 small children, 1 trade, 1 blind, 1 deaf, and the University of California. Number of pupils in public schools, June 1939—12,213; Number of pupils in evening high school, May 1939—2,721; Number of teachers in public schools, June 1939—464; Number of teachers in evening high school, May 1939—75.

Public library and branches contain 164,886 volumes as of September 1939.

Two transcontinental steam railroads serve the city.

Hotels—18 with combined total of more than 1500 rooms.

Churches—81 congregations.

Amusements—9 theatres with total seating capacity of 12,264.

Hospitals—2.

Parks—24 with combined area of 217 acres.

Attendance at Berkeley recreation centers from June 1938 to June 1939—1,908,525.

Trade—1,155 retail stores, 497 service establishments, and 36 wholesale houses; with 4,871 proprietors and employees; producing an annual volume of \$30,750,000.00 in sales and services.

Industry—159 major plants employing 3,441 persons; producing \$43,173,018.00 worth of goods.

Financial—2 banks (12 branches); clearings in 1938—\$80,379,355.73; 3 building and loan associations.

Building and Construction—In 1938-39 were 11,097 permits; estimated value of construction for buildings in excess of \$3,929,236.00.

Post Office receipts—In 1938 were \$661,813.99.

Form of Government—Council-Manager instituted in 1923.

Assessed valuation—\$90,675,070.00 as of October, 1939.

Tax rate—City for 1939-40—\$1.45. County for 1939-40—\$3.40.

Bonded Debt—June 1939—\$997,120.00.

Miscellaneous City Statistics—Total street mileage is 201.05 of which 193.95 miles are paved; 400 miles of sewers; fire loss, 1938-39—\$140,208.57; Infant mortality rate, 27.6 per 1,000 live births (corrected).

BERKELEY

Berkeley is in the center of the San Francisco Bay Region. To the west is the great city of San Francisco; to the north, the industrial region of Richmond and Contra Costa communities; to the south, the important city of Oakland, with a chain of communities stretching far to San Jose at the south end of San Francisco Bay; to the east are miles of wooded parklands and beyond them, farming communities which nestle at the foot of commanding Mount Diablo which rises to the height of 4,200 feet and from which may be seen nineteen counties of California.

To the west, Berkeley overlooks the famous Golden Gate, renowned in song and story.

RECREATION

Closer at hand is Berkeley's own playground of every day—the Regional Park which brings a touch of uncultivated natural beauty within yards of the city limits. It has golf courses and similar attractions, as well as perpetual park care; yet it is unspoiled and touched with the glories of nature.

Berkeley people are recreation minded. The city's several golf courses, the Aquatic Park which is the home of scores of small craft during the season, the many opportunities for hiking, horseback riding, bass fishing and other activities of play nature—all these combine to make life in Berkeley rich in opportunities for enjoyment of this sort.

HOMES

Homes are Berkeley's chief industry and delight. While Berkeley has its importance in industrial and educational fields, and has its own complete and modern shopping districts, it is as a city of residences that it exerts the greatest charm to the newcomer.

Everything grows easily in Berkeley. In its many protected residential zones, the finer developments of modern home architecture, especially as applied to the modest home, are governed by this lavish profusion of flowers and shrubs.

The natural rolling slopes, especially in the eastern part of the city, present a pageant of ever varying views, all of them scenic, of the spectacular San Francisco Bay and Golden Gate. Sunsets are an adventure in Berkeley—old residents maintain that they have never seen two alike.

Every home convenience and utility is available to the home owner in Berkeley. Electric power, natural gas, sparkling clear water brought 150 miles from the Sierras, complete telephone and similar communication services, and a municipal garbage collection and disposal service, insure the utility service of every resident.

Most streets are parked with shrubs and especially with iris, so that the year around the garden motif paints the scene with the luxuriance of well-tended roads.

Although Berkeley is a homogeneous and well built up city, there are still numbers of unoccupied and available building sites in many parts of the city, awaiting the selection of the home owner.

EDUCATION

Education has ever been one of Berkeley's major interests. The University of California, the world's largest, centers many of its activities around this, its home campus. The buildings of the University are especially handsome, being built according to a plan selected as the result of a \$50,000 prize contest. White granite, typical of the Sierras, and red tile, speaking of the Mission days in California history, have been harmoniously combined in a unique and commanding style of architecture.

The intellectual achievements of the University, which have led to numerous Nobel prizes and the widest recognition for academic work, are of the highest grade. The University confers all degrees from Bachelor to Doctor.

The students live largely in private homes, University residence halls, fraternity and sorority houses, and University dormitories. The faculty of over 1,000 takes a leading part in civic life and the usual "Town and Gown" feud is notorious by its absence.

The University faculty includes numerous individuals of world-wide distinction.

Throughout Berkeley's most creditable school system, the atmosphere of the University makes itself felt in high standards of teaching, combined with the practical needs of present-day secondary education.

Berkeley's schools are well housed and well located. Several of them are connected with the University's teacher-training programs, and the best minds of the University consult with the school departments.

CITY GOVERNMENT

Berkeley's city government is outstanding among communities of any size in the United States, and establishes leadership for cities of Berkeley's own size.

The government is of the mayor-council-city manager type, and conceives its purpose as the service of the residents of the city. Especially in such service departments as police, fire, health, education, and recreation, does it attain this ideal.

Economy and business methods in government have consistently kept Berkeley's tax rate at a remarkably low figure, together with maintenance of service. Major crime is virtually nil in Berkeley; and the rates of minor crimes are held to an exceedingly low point. Part of this development is traceable to the scientific methods which have made Berkeley the source of modern-trained police officers who have gone as "missionaries" to police departments all over the world, and who are in demand at leading Universities for the extension of what has come to be known as "Berkeley principles."

Labor conditions in Berkeley are among the best in the entire state of California. Berkeley's industries are of a specialized nature to a large degree, calling for a higher type of skilled or semi-skilled workers, and the city has been notably free from labor disturbances. An enlightened viewpoint crystallized through Berkeley's civic organizations has enabled the city to avoid many of the disturbances which might otherwise have come its way.

TRANSPORTATION

Berkeley is unusually well served by modern fast transportation. Two main line railways—the Southern Pacific and the Santa Fe—enter Berkeley, and there is also switching to the Western Pacific and D. & R. G., and to the Sacramento Northern electric railway. Fast electric trains operate across the San Francisco Bay bridge on approximately twenty-minute schedules. Street cars and buses weave a network of transportation within the city and connect it with its neighboring communities to the north and south. Two main airlines—United Airlines and Transcontinental Western Air—have home ports within a few minutes of Berkeley.

Berkeley is connected also with all parts of California by modern three and four-lane highways. Scenic drives abound, and the new mile-long low level full speed limit tunnel opens areas to the east in a matter of minutes from downtown Berkeley. To the north, the state highway system includes the Carquinez Straits toll bridge and the San Francisco-Oakland bridge includes a six-lane highway on its upper level.

A FINER PLACE TO LIVE!

So much for the factual information about Berkeley; however, its greatest charm is an intangible one. It is that indescribable but instantly recognizable trait known as community personality. It is more, even, than the atmosphere of quiet and comfort and happiness; it is more than the salt-tanged ocean air blending with the scent of Eucalyptus and of Cedar and of wood smoke from home hearths; it is more than the air of comfortable yet unostentatious well-being which marks the city in which business is always good; it is more than the cloistered quiet of academic halls, or the light laughter and happy shouting of children of all ages; it is, in short, a combination of traits and experiences and physical facts utterly unique among America's cities.

ALAMEDA

STATISTICAL REVIEW

Name of City—Alameda.

Form of Government—City Manager—Council.

Population—40,000.

Area—21.63 square miles.

Altitude—15 feet above sea level.

Climate—Mean annual temperature 56.4 degrees F.; average rainfall 23 inches.

Parks—7.

Assessed Valuation—\$31,386,850 with \$1.66 per \$100.00 tax rate (1939).

Bonded Debts—\$629,097 (1939).

Postal Receipts—\$143,509 (1938).

Telephones in Service—10,617.

Automobile Registrations—9,783.

Churches—22.

Building and Construction—Building permits issued in 1938 valued at \$1,431,590.20.

Hotels—There are 3 hotels and many apartments with transient and permanent accommodations.

Railroads—City served by 3 railroads: Western Pacific, Southern Pacific and Santa Fe.

Airports—San Francisco Bay Airdrome, centrally located in Alameda, is one of the best equipped airports in any community.

Amusements—Largest auditorium seats 2,300 persons, 5 theatres, with total seating capacity of 5,000 persons, also Neptune Beach Amusement Park; Municipal Golf course of 150 acres; Aeolian and Encinal Yacht clubs, and Purcell's Plunge.

Hospitals—2; Alameda Sanatorium and Tennant's Maternity Hospital.

Education—Number of public schools 10, including 1 senior high school. Number of parochial schools 1 and private 1. Number of pupils in public schools 7,500, in parochial schools 300.

Public Libraries—2 (1 main and 1 branch building) with total of 75,000 volumes.

City Statistics—Total street mileage 71.5 with 66.5 miles paved. Miles of gas mains 50; of sewers (storm and sanitary) 64.5. Fire department has 51 men, with 3 engines, 2 hose and chemical wagons, and 2 hook-and-ladder trucks, in 4 station houses. Value of fire department real estate and equipment, \$124,719. Police department has 38 men, with 1 station and 12 pieces of motor equipment.

ALAMEDA

ALAMEDA: A city of homes and industries, of culture and education, located on the east shore of San Francisco Bay; has an area of 21.63 square miles, with a population of 40,000.

GOVERNMENT: City manager form of government administered by a city manager and a legislative body consisting of five Council members, the president of which is the mayor.

RECREATIONAL: Five beautiful parks conveniently located, equipped with modern apparatus and supervised by competent playground directors; as well as the nationally known Neptune Beach Park with its huge salt water tank and many forms of amusement; miles of sunbathed, sandy municipal beaches, and private outdoor swimming facilities, provide all forms of diversion for both old and young. Boating in the peaceful waters of the San Francisco Bay and San Leandro Bay, is enjoyed by yachting and motor boat enthusiasts throughout the seasons, while the Annual Regatta and Water Sports Carnival brings deserved fame to Alameda. Bass and other salt water game fish attract fishermen and lovers of this sport to the environs.

FLOWERS: Lovers of flowers and gardening may in the rich sandy soil of Alameda, produce the choicest of blooms. There are several floral societies and the annual Flower Festival attracts great throngs of enthusiastic admirers.

EDUCATIONAL: In the belief that children are entitled to a well rounded education, ten public schools including a modern High School, which was erected at a cost in excess of a million and a half dollars, are maintained and these together with the State University at Berkeley and the famed Mills' College in Oakland, both in close proximity to Alameda, offer everything in the field of education.

GOVERNMENT ACTIVITIES: On Government Island, located in the Estuary separating Alameda from Oakland, sixteen modern buildings house the Federal Department of Coast Guard, Bureau of Public Roads and Western Division of Forestry. In west Alameda comprising the site of the Alameda Airport and the former Benton Field, with additional area amounting to some 2,000 acres, is the location of the Naval Air Station on which the Navy will base its seaplanes. This gigantic \$15,000,000 development is now under construction and will be in full operation by the year 1942.

LIGHT: The municipally owned Electric Light Plant distributing all light and power to the community, was established in 1887 and has been successfully operated, producing a source of revenue that contributes largely to the low city tax rate.

WATER: Alameda receives its water supply from the East Bay Municipal Utility District through the people's Mokelumne River Mountain water project and distributing system, which assures consumers of an ample supply of pure water at a minimum cost.

CONSTRUCTION: The \$15,000,000 Naval Air Station now under construction in Alameda, is the impetus for a program of home building, opening of new residential tracts, and extensive home and business structure modernization.

INDUSTRIES: Careful zoning of industrial lands, which has preserved a large acreage, adequately served by rail and water, permits location of large enterprises desiring to establish themselves in the great metropolitan Bay Area. Already many large nationally known industries are located in Alameda, and with an ambitious construction program that will reflect itself in industrial development not surpassed by any community, Alameda's future is assured.

ENCINAL TERMINALS: Encinal Terminals, located on the Estuary separating Alameda and Oakland, has terminal warehouse space of 300,000 sq. ft, with berthing space for five large ocean-going vessels, and service as to steamers including Coastal, Intercoastal and Foreign, as well as San Francisco Bay and River Carriers, with routes to all ports. By means of the Alameda Belt Line, connection is had with transcontinental systems: Southern Pacific, Western Pacific and Santa Fe. Complete truck service extends to nearly all interior California points. Specialized service in any detail of all types of freight shipments is afforded, including pool car and storage services.

SOURCE OF INFORMATION: The Alameda Chamber of Commerce is prepared to furnish information and statistical data of all character, and earnestly invites inquiries.

Polytechnic College of Engineering, Oakland, Calif.

●
Main Building,
Polytechnic College
of Engineering

*
Thirteenth and Madison
Streets, Oakland, Calif.

Established in 1898 — Chartered to Grant Degrees in 1911

Practical Engineering

ELECTRICAL, MECHANICAL, MINING, CIVIL, ARCHITECTURAL,
AERONAUTICAL, STRUCTURAL, CHEMICAL, DIESEL,
AIR CONDITIONING AND RADIO ENGINEERING COURSES COMPLETE

Aeronautical Engineering and Radio Engineering

**AUTO MECHANICS AND SPECIAL MACHINE SHOP COURSES.
MECHANICAL, ELECTRICAL AND ARCHITECTURAL DRAWING.
SPECIAL SURVEYING AND BUILDING ESTIMATING COURSES.**

This college concentrates upon the subjects required in engineering practice and omits the non-essential subjects, thus saving the student about one-fourth the time required in a four-year college course.

Small classes, individual instruction, close personal contact with instructors and intensive training give students of this college special advantages in their engineering courses. Degrees granted to all who complete full courses.

**NEW ELECTRICAL AND HYDRAULIC LABORATORIES
EXTENSIVE SHOPS — FIELD INSTRUMENTS — MODERN
EQUIPMENT — NEW DIESEL POWER LABORATORY**

No formal examinations as entrance requirements — an opportunity for those who must rise by their own industry. Faculty of experienced men of sound training, character and experience.

This college offers a chance to the young man who can not spend four years in university before "getting on the pay roll." It means a saving of time and money and many are taking advantage of the splendid facilities offered here.

W. E. GIBSON, President

College in session the entire year and students admitted at any time. Free Catalogue.

Polytechnic Junior College

13TH AND MADISON STREETS, OAKLAND, CALIFORNIA

FOR YOUNG MEN AND YOUNG WOMEN

Organized in August, 1933, at the request of leading educators and Eastbay citizens who felt the need of a Junior College in Oakland. While this is a private school, it has, nevertheless, made a very low rate of tuition to its students.

Smaller Classes Best

It is now believed by many leading school men that the close personal contact made possible in the smaller classes in the smaller school makes for better results and especially for those young people who wish to go to university and whose high school credits do not meet university requirements.

Both the University of California and Stanford require a high average in order to secure credit for advance standing and our schedule of work is designed to meet these requirements for the first two years.

Faculty

Members of the Polytechnic Faculty were recommended to us by university professors and are experienced instructors of high standing in Junior College work. They are following closely university requirements in freshman and sophomore courses, and students may depend upon real college training in their work here.

Low Cost Policy

It was definitely decided at the opening of this college that a low rate of tuition should be offered. After a careful estimate of costs the tuition rate was fixed at —

\$75.00 for the full semester—4½ months.

\$20.00 per month, if paid monthly.

No extra fees for laboratory.

This makes it possible for many to attend who cannot afford an expensive tuition.

Parents

Parents who have sons and daughters they wish to have a college education are invited to visit this school and make a personal investigation. We have found that parents are pleased with the personal interest and individual help we are giving students of this college and we shall continue to make high scholarship paramount.

We can get your High School Transcript

Write, or phone HI gate 8700 for catalog of courses

Your City Directory is Standardized
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

FRUITVALE 7500

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Freeman & Co. Roach & Kenney, Inc.

BEKINS & STORAGE CO.

The mark of the modern moment identifying a jewelry store that is a gem, a camera shop that is a jewel with a treasure

DAVIDSON & LICHT JEWELRY CO.
 20th & BROADWAY OAKLAND

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform: Sixteen gauge wire is identically the same size in Boston or Billingsham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

of the Year

1635 TELEGRAPH AVENUE, OAKLAND

FOR ALL THE
FAMILY
CREDIT
MORE THAN
1000 STORES
TO PAY

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Co.

The mark of the
modern moment
identifying
a jewelry store
that is a gem,
a camera shop
that is a jewel
with a
stock that is
a treasure

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

HOME FURNISHERS SINCE 1856

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contracts, are the greatest factors in the refinement of service. They help that service which is the greatest factor in the attainment of high degree of efficiency. Performed by the Association of North American Directory Publishers.

Every Store should appear in the Directory and the Directory should be in Every Store.

Offers its use to the storekeeper, it is convenient the customer looks for. The store that offers an old Directory, or no Directory, at all, fails to show its patrons a courtesy they will find elsewhere.

Greenman & Cox Roach & Kenney, Inc.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fortified. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Publishers.

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the stockbroker, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons for whom they will find elsewhere.

Your City Directory Should Be Trade-Marked

By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, is the greatest factor in the refinement of a service or a product. It is this office help that service or product attains a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. A store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory Should Be Trade-Marked
Contract in the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are essential factors in the refinement of a service or a product, or in the development of a new product. All this is accomplished by the service performed by the Association of North American Publishers.

Contract in the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are essential factors in the refinement of a service or a product, or in the development of a new product.
